1. Solid Waste Management Policy

Mauritius generates about 1,200 tons of waste daily. To improve management of solid waste and to protect the environment, the Government has established the Mare Chicose Landfill together with a network of transfer stations. Open dumping grounds are being closed gradually. Should these 1,200 tons of waste continue to be disposed of at Mare Chicose Landfill, the cost of operation and the management of the landfill would be very high. In addition, this will considerably shorten the life span of the landfill, urging the Government to open other landfill sites in the near future.

The Government therefore proposes to reduce the amount of waste going to the landfill through re-use, recycling, composting and eventually incineration.

It is estimated that about 50% of the waste generated is organic (mostly garden waste). This waste can be composted and used as soil conditioner for agriculture. It is proposed to establish composting plants for green waste.

In addition, more than 100 tons of waste produced daily are inert (construction and demolition waste) which can be used as back fill materials.

Some other types of wastes have a high potential for recycling or incinerating with or without energy conversion.

Recovered waste would bring about numerous advantages by their re-use and in addition, would lengthen the lifetime of final disposal site.

Service Providers are therefore requested, when submitting their bids, to take into account this long-term plan.

Bidders will be expected to demonstrate that they have the capacity and know-how to organise the collection of the different types of wastes effectively and employing a least cost strategy.

4. Street Cleaning, Refuse Collection and Disposal after the passage of cyclone

4.1 General

After the passage of cyclones huge volumes of green waste have to be carted away and the population usually seizes this opportunity to get rid of their bulky wastes as well. It is the responsibility of the Council to ensure that all the post cyclonic wastes in addition to the normal domestic wastes are carted away safely over a short period of time to avoid environmental hazards.

To attain this objective, temporary dump sites shall be opened during the cyclonic season and through this bid exercise, the Council intends to cart away the post cyclonic wastes.

All the Service Providers serving the Council will dispose of their post cyclonic wastes at the landfill and temporary dump sites. No domestic waste shall be accepted at the temporary dump sites.

The bidder is encouraged to associate with other waste carrying Service Providers or other transportation contractors to provide the necessary resources to satisfy the on-site requirements.

During the cyclonic season the Service Providers already working for the Council shall continue to execute their contracts duties which they have entered with the Council i.e. collection and disposal of all domestic, usual bulky waste and non-compatible wastes to transfer stations or Mare Chicose Landfill.

- Carting away of damaged trees/branches that appear to be dangerous in public places.

However, 5 days after cleaning, the Service Provider has to inspect his respective sites and collect and cart away all green waste defined above or any bulky waste as may be directed by the Council. All dried branches that may still be hanging in public places and that may prove to be dangerous to the public should be carted away.

4.4 Details of disposal sites

The Service Provider has to dispose of the post cyclonic wastes to the nearest of the temporary dump sites and any other temporary dump site approved by the Council and/or Ministry of Local Government or at Mare Chicose landfill or as appropriate, whichever is closer.

In case any lorry is seen to transport domestic waste or a mixture of domestic and green waste, to any temporary dumping site the lorry will be refused outright. In
cases where domestic wastes or mixture of waste is noticed after tipping, the Service Provider will bear the cost of re-collecting the domestic waste or mixture of domestic/green waste and its transportation to the respective transfer station. | 5.3 Services and Facilities | The Employer shall make available to the Service Provider the Services and Facilities listed under Appendix F. |

**6. Payments to the Service Provider**

**6.1 Lump-Sum Remuneration**

The Service Provider’s remuneration shall not exceed the Contract Price and shall be a fixed lump-sum including all Subcontractors’ costs, and all other costs incurred by the Service Provider in carrying out the Services described in Appendix A. Except as provided in Sub-Clause 5.2, the Contract Price may only be increased above the amounts stated in Sub-Clause 6.2 if the Parties have agreed to additional payments in accordance with Sub-Clauses 2.4 and 6.3.

**6.2 Contract Price**

(a) The price payable in local currency is **set forth in the SCC**.

(b) The price payable in foreign currency is set **forth in the SCC**.

6.3.1 For the purpose of determining the remuneration due for additional Services as may be agreed under Sub-Clause 2.4, a breakdown of the lump-sum price is provided in Appendices D and E.

**6.4 Terms and Conditions of Payment**

6.4 Payments will be made to the Service Provider according to the payment schedule **stated in the SCC**. **Unless otherwise stated in the SCC**, the advance payment (Advance for Mobilization, Materials and Supplies) shall be made against the provision by the Service Provider of a bank guarantee from a bank operating in Mauritius for the same amount, and shall be valid for the period **stated in the SCC**. Any other payment shall be made after the conditions **listed in the SCC** for such payment have been met, and the Service Provider have submitted an invoice to the Employer specifying the amount due.

6.6 Price Adjustment

6.6.1 Prices shall be adjusted for fluctuations in the cost of inputs only if provided for in the SCC. If so provided, the amounts certified in each payment certificate, after deducting for Advance Payment, shall be adjusted by applying the respective price adjustment factor to the payment amounts due in each currency. A separate formula of the type indicated below applies to each Contract currency:

\[ P_c = A_c + B_c \frac{Lmc}{Loc} + C_c \frac{Imc}{Ioc} \]

Where:

- \(P_c\) is the adjustment factor for the portion of the Contract Price payable in a specific currency “c”.
- \(A_c\), \(B_c\) and \(C_c\) are coefficients specified in the SCC, representing:
  - \(A_c\) the nonadjustable portion;
  - \(B_c\) the adjustable portion relative to labor costs and
  - \(C_c\) the adjustable portion for other inputs, of the Contract Price payable in that specific currency “c”; and
- \(Lmc\) is the index prevailing at the first day of the month of the corresponding invoice date and \(Loc\) is the index prevailing 28 days before Bid opening for labor; both in the specific currency “c”.
- \(Imc\) is the index prevailing at the first day of the month of the corresponding invoice date and \(Ioc\) is the index prevailing 28 days before Bid opening for other inputs payable; both in the specific currency “c”.

If a price adjustment factor is applied to payments made in a currency other than the currency of the source of the index for a particular indexed input, a correction factor \(Zo/Zn\) will be applied to the respective component factor of \(pn\) for the formula of the relevant currency. \(Zo\) is the number of units of currency of the country of the index, equivalent to one unit of the currency payment on the date of the base index, and \(Zn\) is the corresponding number of such currency units on the date of the current index.

6.6.2 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

6.7 Dayworks

6.7.1 If applicable, the Daywork rates in the Service Provider’s Bid shall be used for small additional amounts of Services only when the Employer has given written instructions in advance for
additional services to be paid in that way.

6.7.2 All work to be paid for as Dayworks shall be recorded by the Service Provider on forms approved by the Employer. Each completed form shall be verified and signed by the Employer representative as indicated in Sub-Clause 1.6 within two days of the Services being performed.

6.7.3 The Service Provider shall be paid for Dayworks subject to obtaining signed Dayworks forms as indicated in Sub-Clause 6.7.2

6.8 Labour Clause

6.8.1(a) The remuneration and other conditions of work of the employees of the Service Provider shall not be less favourable than those established for work of the same character in the trade concerned-

(i) by collective agreement applying to a substantial proportion of the employees and employers in the trade concerned;

(ii) by arbitration awards; or

(iii) by Remuneration Orders.

(b) Where remuneration and conditions of work are not regulated in a manner referred to at (a) above, the rates of the remuneration and other conditions of work shall be not less favourable than the general level observed in the trade in which the contractor is engaged by employers whose general circumstances are similar.

6.8.2 No Service Provider shall be entitled to any payment in respect of work performed in the execution of the contract unless he has, together with his claim for payment filed a certificate:

(a) showing the rates of remuneration and hours of work of the various categories of employees employed in the execution of the contracts;

(b) stating whether any remuneration payable in respect of work done is due;

(c) containing such other information as the Chief Executive Officer of the Public Body administering the contract may require to satisfy himself that the provisions under this clause have been complied with.

6.8.3 Where the Chief Executive Officer of the Public Body administering the contract is satisfied that remuneration is still due to an employee employed under this contract at the time the claim for payment is filed under subsection 1, he may,
unless the remuneration is sooner paid by the Service Provider, arrange for the payment of the remuneration out of the money payable under this contract.

6.8.4 Every Service Provider shall display a copy of this clause of the contract at the place at which the work required by the contract is performed.
